**SUNFIND Home Power Systems**

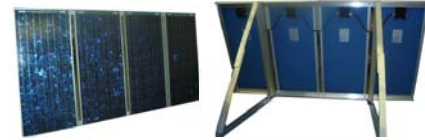

Sunfind Solar Products provides our proprietary SUNFIND Home Power Solar Systems for Remote Homes. Sunfind Solar Products specializes in remote energy solutions and, as such, all our systems are designed for the unique requirements of off-grid home owners. Sunfind Solar Products offers two types of systems: Our SUNFIND HP Systems and SUNFIND CTTG Systems.

#### **SUNFIND HP (Home Power) SYSTEMS**

Sunfind Solar Products' whole goal in bringing our SUNFIND HP Systems to market was to standardize our systems making them much more cost effective. Sunfind Solar Products' can offer the best systems on the market at some of the best prices available.

##### **Solar Array:**

Sunfind Solar Products include BP80 modules that offer among the best quality and longest life of any manufacturer. The solar array comes with the appropriate aluminum mounts, cabling, and other miscellaneous parts required to assemble the solar array.

##### **Powerboard:**

Unique to Sunfind Solar Products is our proprietary SUNFIND Powerboards (PB). SUNFIND PB are a pre-wired, turn-key system that include an Outback Pure SineWave inverter and the superior MX60 charge controller. The SUNFIND PB includes all the applicable AC and DC breakers that are completely integrated into the system. You simply need to mount the SUNFIND PB, connect the batteries and connect the solar array. Simply "Plug 'n' Play".

##### **Battery Bank:**

SUNFIND HP Systems come standard with a Surrrette battery bank. Comprised of the Surrrette 6V batteries, all SUNFIND HP Systems come with a quality battery bank that is going to provide reliable, long term power for years to come. SUNFIND HP Systems can also be equipped with gel cell batteries making the battery bank completely maintenance free. All battery banks come with the required cabling and hardware.

**Documentation:** All SUNFIND HP System come with a Installation Guide, Manuals and other relevant documents.

**Who Should Buy SUNFIND HP Systems?** The SUNFIND HP Solar System is designed for remote full time homes, summer homes and cottages to portable living units. The SUNFIND HP System is for those that want a turn-key system that is "Plug 'n' Play" and requires minimal technical expertise. Also, as all SUNFIND HP Systems produce clean pure sine wave power, you ensure all appliances will operating without humming and all sensitive electronics will operate as required. Purchase a SUNFIND HP System and you receive the most efficient, advanced system available.

#### **SUNFIND CTTG (cottage) SYSTEMS**

##### **Solar Array:**

All SUNFIND CTTG Systems include BP80 modules with the required mounting equipment, cabling, and other miscellaneous parts required. SUNFIND CTTG Systems also include a ProStar 30M digital controller.

##### **Inverter:**

All SUNFIND CTTG Systems come with a 2000W, 12V Magnum Inverter/Charger. This Inverter/Charger can work as a charger when a gasoline generator is used with the system. The Magnum Inverter provides a modified sine wave power curve meaning you may receive a slight hum from certain appliances. Also some electronics, such as laptops, chargers and other sensitive equipment may not work. A Magnum Inverter is perfectly suited for a cabin type situation that require basic appliances.

##### **Battery Bank:**

SUNFIND CTTG Systems come the a Surrrette Battery Bank with all required cabling.

**Who Should Buy a SUNFIND CTTG System?** SUNFIND CTTG Systems are designed for remote cottages, hunting/ guiding cabins, small shops, etc. that require a basic solar system. The SUNFIND CTTG Systems are designed to run appliances such as: lights, tv, microwave, radio and other general appliances. SUNFIND CTTG Systems come with all components required but require all components to be installed per installation manual.

## SUNFIND HP Systems

### SUNFIND HP 320

- 320W Solar Array; 4, 80W Modules
- Aluminum Vertical Mount
- 3600W SUNFIND Powerboard:
  - 3600W/48V Outback Pure Sine Wave Inverter
  - MX60 Charge Controller
  - AC/DC Breakers, CSA Cert.
  - Lightning Protection
- 350AH/48V Surrette Battery Bank
- All Cables and Hardware
- Installation Guide, Manual, and Product Documents

### SUNFIND HP 640

- 640W Solar Array; 8, 80W Modules
- Aluminum Vertical Mount
- 3600W SUNFIND Powerboard:
  - 3600W/48V Outback Pure Sine Wave Inverter
  - MX60 Charge Controller
  - AC/DC Breakers, CSA Cert.
  - Lightning Protection
- 350AH/48V Surrette Battery Bank
- All Cables and Hardware
- Installation Guide, Manual, and Product Documents

### SUNFIND HP 480

- 480W Solar Array; 6, 80W Modules
- Aluminum Vertical Mount
- 3500W SUNFIND Powerboard:
  - 3500W/24V Outback Pure Sine Wave Inverter
  - MX60 Charge Controller
  - AC/DC Breakers, CSA Cert.
  - Lightning Protection
- 350AH/24V Surrette Battery Bank
- All Cables and Hardware
- Installation Guide, Manual, and Product Documents

### SUNFIND HP 960

- 960W Solar Array; 12, 80W Modules
- Aluminum Vertical Mount
- 3600W SUNFIND Powerboard:
  - 3600W/48V Outback Pure Sine Wave Inverter
  - MX60 Charge Controller
  - AC/DC Breakers, CSA Cert.
  - Lightning Protection
- 700AH/48V Surrette Battery Bank
- All Cables and Hardware
- Installation Guide, Manual, and Product Documents

## SUNFIND CTTG Systems

### SUNFIND CTTG 80

- 80W Solar Array
- Aluminum Mount
- ProStar 30A Digital Controller
- 2000W, 12V Magnum Inverter/Charger
- 300A DC Fuse for System Protection
- 350AH/12V Surrette Battery Bank
- All Cables and Hardware
- Installation Guide, Manual, and Product Documents

### SUNFIND CTTG 240

- 240W Solar Array; 3, 80W Modules
- Aluminum Mount
- ProStar 30A Digital Controller
- 2000W, 12V Magnum Inverter/Charger
- 300A DC Fuse for System Protection
- 700AH/12V Surrette Battery Bank
- All Cables and Hardware
- Installation Guide, Manual, and Product Documents

### SUNFIND CTTG 160

- 160W Solar Array; 2, 80W Modules
- Aluminum Mount
- ProStar 30A Digital Controller
- 2000W, 12V Magnum Inverter/Charger
- 300A DC Fuse for System Protection
- 350AH/12V Surrette Battery Bank
- All Cables and Hardware
- Installation Guide, Manual, and Product Documents

### SUNFIND CTTG 320

- 320W Solar Array; 4, 80W Modules
- Aluminum Mount
- ProStar 30A Digital Controller
- 2000W, 12V Magnum Inverter/Charger
- 300A DC Fuse for System Protection
- 700AH/12V Surrette Battery Bank
- All Cables and Hardware
- Installation Guide, Manual, and Product Documents
